Broker

Our Philosophy

At CJ Coleman, we are committed to embracing the philosophy of our founder, Chris Coleman. CJ was a firm believer in not taking himself too seriously but always taking the business seriously; empowering our people to make the right decisions for our partners and always providing excellent service.

At our core, we are a small independent Lloyd's broker with an ambitious, creative and entrepreneurial group of people. We do not believe in micro-management; we entrust our employees to embody CJ's values and work consistently hard to deliver successful solutions for all our partners.

Welcome to CJ Coleman.

Welcome to our family of experts.

Modern risk.
Human trust.

Professional Liability

We have developed a global portfolio for Professional Liability and Indemnity Insurance, which is founded on our strong reputation and positive recommendations.

Our success is a result of our extensive technical expertise and our commitment to effective risk management strategies.

Coverage is available for all professions, whether as Primary or Excess options, and we can collaborate with local markets to quota share accordingly.

Cyber

Our specialist Cyber team delivers high-quality insurance solutions to help mitigate the potential financial and reputational losses from cyber events.

As new threats and attack methods constantly emerge in the cyber landscape, we provide clients with tailored Cyber insurance.

Our offerings are backed by our experience and knowledge, as well as strong relationships with insurers in both the Lloyd's and Company markets.

Directors & Officers Liability

As the demand for protection against a growing range of potential claims against senior staff increases, we utilise our extensive experience to ensure our clients have the best coverage tailored to their specific needs.

Medical Malpractice

Medical malpractice has been a core part of our business for over 25 years, providing tailored indemnity defence coverage to healthcare professionals, both individually and in partnership with medical and healthcare associations for their members.

Financial Lines

Our Financial Institutions Team provides expert advisory services and deep technical knowledge for a wide range of clients in the financial sector, including asset and fund managers, wealth management firms, financial advisory services, community banks, hedge funds, corporate service providers, trust companies, private equity firms, venture capital houses, family offices, fund of funds, structured solutions, investment trusts, and insurance & investment management companies worldwide.

Liability Products

As we recognise the uniqueness of specific risks, we discover the power of tailored insurance coverage.

We champion the needs of diverse sectors, from educational institutions safeguarding against abuse and molestation, to manufacturers protecting their innovations with intellectual property insurance, and festivals ensuring the celebration of their visions with event cancellation coverage.
